Zinc Sulphate

GUARANTEED ANALYSIS

Zinc (Zn) 36%
Derived from: Zinc Sulphate F-370

Zinc Sulphate helps prevent and control Rosette on Pecan trees and provides an excellent source of zinc. This product can be applied as a foliage spray or as a soil treatment.

DIRECTIONS FOR USE

Foliage Spray: Mix 1 tablespoon per 3 gallons of water or 1 lb. per 50 gallons of water. Make first application after pollination when tip of nuts turn brown. Make 2 more applications at 3 to 4 week intervals.

Soil Treatment: Apply broadcast from the trunk to the dripline. For trees up to 7 inches in diameter, apply 1 1/4 lbs. per inch of diameter. For trees over 7 inches in diameter, apply 3 1/2 lbs. per inch of diameter. Product should be worked into soil to prevent washing away.

This product is not intended for nor recommended for container grown plants.

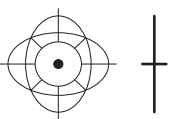

WARNING - HARMFUL IF SWALLOWED

Contains Zinc Sulfate

If swallowed, give 1 or 2 glasses of water.
Call physician immediately.
