

# Roach Terminal

Ecologix... delivering pest control... not just pesticides

SPECIMEN LABEL

## FOR USE IN COMMERCIAL, INDUSTRIAL, AND RESIDENTIAL AREAS

The Roach Terminal by Cleary Chemical is an effective cockroach population control agent for control of small cockroaches, such as German Cockroaches, even those known to be resistant to other classes of insecticides.

Roach Terminal can be used in any indoor area where cockroaches are a problem. These include areas such as residential, warehousing and commercial establishments, including food services, food manufacturing and food processing facilities, hospitals, nursing homes, healthcare facilities, schools, daycare centers, basements, laboratories, computer and electronic equipment facilities, pet shops, zoos, aircraft, buses, boats, and trains.

Since most cockroach infestations require a long-term population control strategy, the Roach Terminal by Cleary Chemical is designed to be a key element in this program. The active ingredients act as a Nutritional Metabolism Disrupter which blocks the production of uric acid reserves needed by cockroaches during reproduction and growth. This mode of action disrupts egg production, (the Birth Control Effect™) while controlling populations of both adults and nymphs.

Roach terminal has been specially formulated to attract cockroaches to feed continuously, even in the presence of other foods. The bait station is also designed with a transparent top, which allows bait consumption to be easily monitored.

### ACTIVE INGREDIENTS:

Oxypurinol .....1%  
Xanthine .....1%

INERT INGREDIENTS: .....98%

TOTAL: .....100%

EPA Reg. No. 1001-73  
Product Code No. 5002

### FIRST AID

**IF IN EYES:** Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

For emergency information call 1-800-222-1212 or your local Poison Control Center. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

## CAUTION

### DIRECTIONS FOR USE

**It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.**

1. For effective cockroach control, enough Ecologix Cockroach Bait stations must be placed in areas of cockroach feeding to insure complete exposure of the cockroach population to the bait. The more bait that is placed in the proper locations, the more access the roaches will have to the bait, resulting in more effective control.
2. For light to moderate infestations, use 6 stations per 100 square feet of treatment area.
3. In heavily infested locations, bait stations may be combined with other control programs. Place 10 - 12 bait stations per 100 square feet of treatment area.
4. Place the Ecologix Cockroach Bait stations in areas where cockroaches have been seen and where they hide. Cockroaches infest dark, warm, damp locations close to food and water such as kitchens and bathrooms. Place terminals in concealed locations such as under refrigerators and appliances and inside cabinets and drawers near plumbing fixtures.
5. Bait stations can be placed on horizontal or vertical surfaces next to and touching walls and flush in corners.
6. Do not spray the bait stations with insecticides or household detergents and avoid placing the bait stations on surfaces freshly sprayed with these products.
7. Cockroaches will begin eating the Ecologix Cockroach Bait immediately and the effects of the nutritional

metabolism disrupter will begin to take effect. Since this is a long-term agent, population reductions will not be evident for six to ten weeks.

8. Routinely inspect all bait stations and replace as needed for continuous control of cockroaches. In areas where cockroach feeding is not occurring on previously placed stations, move those stations to areas of active feeding or where other stations have had the bait heavily consumed.

### PRECAUTIONARY STATEMENTS

#### HAZARD TO HUMANS AND DOMESTIC ANIMALS

#### CAUTION:

**Causes moderate eye irritation. Avoid contact with eyes or clothing. Washing hands thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco will reduce exposure.**

### STORAGE AND DISPOSAL

**Do Not contaminate water, food, or feed by storage and disposal.**

**PESTICIDE STORAGE:** Store in an area not accessible to children.

**STATION DISPOSAL:** IF EMPTY: Do not reuse this container. Place in trash or offer for recycling if available. IF PARTLY FILLED: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**DO NOT ALLOW CHILDREN OR PETS TO PLAY WITH THE BAIT STATIONS.**
