

PLOT SUPPLY CALCULATOR™

TO DETERMINE THE SUPPLIES NEEDED FOR LARGE OR MULTIPLE PLOTS, PLEASE SEE THE CHART BELOW. FOR PLOTS LARGER THAN 10 ACRES, DIVIDE INTO MULTIPLE PLOTS AND PROTECT INDIVIDUALLY. IT IS BEST TO MEASURE THE PERIMETER OF YOUR PLOT, YARD OR GARDEN BEFORE PURCHASING.

DOUBLING THE AMOUNT OF REPELLENT IN ANY PACKAGE WILL DOUBLE THE DAYS OF PROTECTION!

THE BLOCKS PICTURED ON THE LEFT HERE DEMONSTRATE HOW SUPPLIES ARE DETERMINED. NOTICE THAT A TWO ACRE PLOT DOES NOT REQUIRE TWICE AS MUCH MATERIAL AS A ONE ACRE PLOT, SINCE THE CENTER LINE OF THE PLOT DOES NOT NEED TO BE PROTECTED. THE TWO ACRE PLOT IS TWICE AS LARGE AS THE ONE ACRE PLOT, BUT ITS PERIMETER IS ONLY 1.5 TIMES GREATER!
