

DIRECTIONS FOR USE:

Mix proper dosage with any amount of palatable feed that will be consumed in one serving. If possible, confine treated pets for a day or two so that the droppings can be collected and destroyed. Heavily infested animals may require a second treatment after two weeks.

Consult your veterinarian for assistance in the diagnosis, treatment and control of parasites.

DOSAGE TABLE Measure Accurately

| Body Weight | Cats | Dogs |
|--------------------|--------------|-----------------|
| 2-1/2 lbs. or less | 1/4 teaspoon | 1/4 teaspoon |

**FOR CATS AND
DOGS OF ALL AGES**

D-Worm™

(piperazine)

LIQUID WORMER

FOR KITTENS AND CATS
PUPPIES AND DOGS

**CAUTION: KEEP OUT OF
REACH OF CHILDREN**

Easy to Use • Removes Large
Roundworms (Ascarids)

(*Toxocara canis*, *Toxocara cati*, *Toxascaris leonina*)

Net Contents: 8 fl oz (236 mL)

CAUTION:

Consult veterinarian before using in severely debilitated animals. Do not worm animals more than twice yearly except as advised by a veterinarian. This product is effective for those roundworm stages found in the intestine and does not remove migrating larval stages. Animals should be checked periodically by a veterinarian for the presence of other intestinal parasites. Avoid freezing.

Lot no. and expiration date on bottom
of container.
